Dear Ms. Cange:

Re: Maywood Interim Storage Site
Classification Sampling, Document DOE/OR 21949-296

The New Jersey Department of Environmental Protection and Energy (Department) has reviewed the document Characterization Report for the Interim Storage Pile at the Maywood Interim Storage Site, dated October 1991, and found that the analytical data submitted representing the soil at the referenced site indicates that this waste pile does not contain sufficient concentrations of hazardous substances to be considered hazardous waste.

The wastes in this pile may, therefore, be disposed in a facility that will accept non-hazardous, low level radioactive materials.

Should you have any questions you may contact me at (609) 633-1455.

Sincerely,

A handwritten signature in black ink that reads "E. G. Kaup".

Edgar G. Kaup, P.E., Case Manager
Bureau of Federal Case Management
