Oak Ridge, Tennessee 37831-8723

Re: Federal Facilities Agreement for
Wayne and Maywood FUSRAP Sites

Dear Mr. La Grone:

I am pleased to return three copies each of the signed Federal Facility Agreements (along with one original signature page for each) for the Formerly Utilized Sites Remedial Action Program sites located in Wayne and Maywood, New Jersey. The agreements were signed by the Regional Administrator on September 17, 1990. Public notices (previously coordinated between Bob Atkin and myself) that will begin the 45 day public comment period on these agreements are scheduled to be placed in local newspapers on October 4, 1990.

We thank you for the continued cooperative relationships developed between DOE and EPA.

Sincerely,

Robert J. Wing, Chief
Federal Facilities Section
