Dear 5-:

MAYWOOD SITE -- PUBLICATION OF THE WORK PLAN-IMPLEMENTATION PLAN

The purpose of this letter is to inform you that the work plan-implementation plan for the Maywood Site has been published by the Department of Energy (DOE). This document is available in the Maywood Site administrative record located at the Maywood Public Library at 459 Maywood Avenue and the Department of Energy Public Information Center at 43 West Pleasant Avenue, Maywood.

The work plan-implementation plan describes historical information about the Maywood Site, outlines the overall environmental review process, and identifies additional information needs in order to develop and evaluate cleanup alternatives. The plan has been updated to include a summary of the DOE responses to public comments made during the official comment period on the draft work plan, as well as comments made at the December 1990 public meeting.

If you would like to receive a copy of the work plan-implementation plan or have questions related to the Maywood Site cleanup, please call the DOE information center (201) 843-7466, or leave a message on our public access line (800-253-9759).

Sincerely,

Susan M. Cange, Site Manager
Former Sites Restoration Division
