Re: EPA Comments on DOE's Corrections to the Final *Baseline Risk Assessment for the Maywood Site* (March, 1993)

Dear Ms. Cange:

The Environmental Protection Agency (EPA) concurs with the corrections made to the final *Baseline Risk Assessment for the Maywood Site* (March, 1993) submitted by the Department of Energy to the EPA on June 7, 1993. These changes were necessary due to an error in which indoor and outdoor gamma radiation measurements were entered incorrectly into the site database for Property Unit 7H.

If you have any questions, please call me at (212) 264-6667.

Sincerely yours,
