Re: MISS Cleanup Level Dispute

Dear Mr. Price:

As you know, EPA and DOE project managers have formally disagreed on cleanup levels for the Maywood Interim Storage Site (MISS). Pursuant to the federal facility agreement between our agencies for the MISS, that disagreement has been formally elevated to you and me, as members of the Dispute Resolution Committee (DRC) for resolution. Based on our meeting on August 3, 1993 and numerous communications among our staff, I believe that we are close to resolving this dispute. In principle, I concur with the content of your August 11, 1993 letter in which you outline items of agreement. However, because both our staffs are still working on some substantive elements of the dispute, I request that the deadline for the DRC to resolve the dispute be extended until September 8, 1993.

It is my understanding that, based on our progress, you are agreeable to this extension. As provided by Section XXXIII (Extensions) of the agreement, a deadline can be extended by mutual agreement of both parties. I have provided space below for you to acknowledge, by signature, your concurrence with this extension.

If resolution of the dispute does not occur by September 8, 1993, the dispute will be elevated by EPA to the Senior Executive Committee.

(2)

I appreciate your cooperation in this matter. If you have any questions, please contact me immediately at (212) 264-8672. Otherwise please acknowledge your concurrence with this extension in the space provided below and return a copy to me.

Sincerely yours,

William McCabe

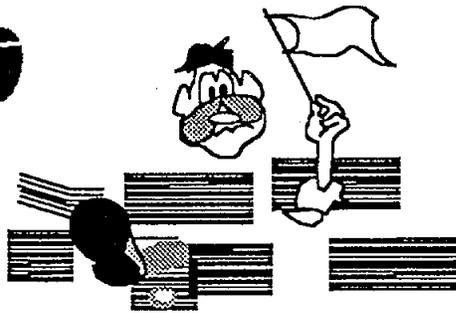

for George Pavlou, Acting Director
Emergency and Remedial Response Division

Concurrence is hereby acknowledged.
