DATE: OCT 07 1994

REPLY TO: EM-421 (A. Johnson, 427-1718)
ATTN OF:

SUBJECT: Final Engineering Evaluation/Cost Analysis for the Maywood Pile

TO: S. Golian, EM-22
J. Berling, EH-22
C. Osborne, EH-25
D. Monroe, GC-51

Attached for your information is the final engineering evaluation/cost analysis (EE/CA) for the remediation of the interim storage pile at Maywood, New Jersey. This final document includes a responsiveness summary to public comments made during May and June of this year. Many of the comments dealt with matters beyond the remediation of the pile including clean-up criteria and trust and confidence in the Department of Energy (DOE).

Copies of the EE/CA have been made available to the public. In addition, a copy has been placed in the administrative record file at the Maywood Public Library and at the DOE public information center in Maywood.

Remediation of the pile is scheduled to begin the week of October 10, 1994. If you have any questions concerning this document, please contact me at 427-1718.

Albert S. Johnson
Remediation Engineer
Off-Site/Savannah River Program Division
Office of Eastern Area Programs
Office of Environmental Restoration
