Re: Maywood Site - Planning Assumptions for Remedial Design Work

Dear Ms. Cange:

The purpose of this letter is to confirm that the Environmental Protection Agency (EPA) concurs with the review process for remedial design documents as outlined in your letter of December 8, 1994, for the Maywood Site residential properties and parks. EPA also agrees to the reduction of review cycles and associated times for comment and revision.

As you note, EPA's comments will be contingent on a Record of Decision being signed for the designed remedy. Please feel free to contact me at (212) 264-3032 if there are any questions or comments.

Sincerely,

Angela Carpenter
