Trenton, New Jersey 08625

Dear Mr. Marton:

MAYWOOD AND WAYNE SITES - SAMPLING AND ANALYSIS PLAN FOR THE SOIL WASHING TEST PROJECT

Enclosed, for your information, are three copies of the Sampling and Analysis Plan for the Soil Washing Test Project of the Wayne and Maywood Soils at the K-25 Site. As we have discussed, the first campaign of testing will be conducted with soils from the Maywood storage pile. Testing is scheduled to begin on October 16 and is estimated to last approximately two weeks.

An invitation has been extended to Mayor Steuert and Tom Richards of Maywood's Environmental Legislative Action Committee to come to Oak Ridge to observe the testing. Tentative dates of October 25 or 26 have been identified for their visit. I'd like to extend an invitation to you to observe the testing at the same time. Please let me know if you're interested.

If you have any questions about the enclosed document or the testing program, please contact me at (423) 576-5724.

Sincerely,

A handwritten signature in cursive script that reads "Susan M. Cange".

Susan M. Cange, Site Manager
