Dear Ms. Carpenter:

MAYWOOD SITE - CHARACTERIZATION DATA FOR PHASE I PROPERTIES

Please find enclosed a copy of a Technical Memorandum for the results of recent characterization efforts at some of the Maywood site vicinity properties.

This characterization effort was conducted in March 1995 and served to address gaps in earlier data. The effort successfully produced a more accurate portrayal of the extent of contamination at the vicinity properties that will be addressed during Phase I remedial action, which begins this fall.

If you have any questions concerning this data or the planned cleanup activities please call me at (615)576-5724.

Sincerely,

A handwritten signature in cursive script that reads "Susan M. Cange".
