# ADMINISTRATIVE RECORD

for Maywood, New Jersey

---

U.S. Department of Energy

State of New Jersey AUG 4 2 12 PM '95

Christine Todd Whitman  
Governor

Department of Environmental Protection

Robert C. Shinn, Jr.  
Commissioner

JUL 28 1995

Mr. Frank Bieniek  
26 Long Valley Road  
Lodi, New Jersey

Dear Mr. Bieniek:

Re: Thorium Contamination, 26 Long Valley Road, Lodi, New Jersey

Attached please find copies of two reports discussing thorium contamination associated with the Maywood Superfund site. The first report, "Radiological Characterization report for the Residential Property at 26 Long Valley Road", is specific to your residence and describes contamination found at your property. The second report is the Engineering Evaluation/Cost Analysis (EE/CA) which lists properties to be remediated by the United States Department of Energy including your residence. Remedial activities at the listed locations are to take place in advance of the Record of Decision for the Maywood Superfund site or beginning with Federal Fiscal year 1996, pending approved funding.

I hope that the enclosed information proves helpful. If you have any further questions please feel free to contact me at (609) 633 - 1455.

Sincerely,

Nicholas L. Marton, MPH  
Research Scientist II/Case Manager  
Bureau of Federal Case Management
