ITEMS OF DISCUSSION	ACTIONS REQUIRED (INCLUDE NAMES AND DATES)
<p>Mr. Grandys is with Sears Corporate in Chicago. They are assessing removal options for a UST at the Sears warehouse property adjacent to the MISS. He was curious as to wheter it was possible and what would need to be done.</p>	

Scarborough explained the cooperation that DOE/Bechtel could provide in the event that Sears wanted to go forward with the planned UST removal, i.e., characterization data, HP tech support, meetings to discuss work, etc.

NO ACTIONS REQUIRED; GRANDYS WILL CALL BACK
