Mr. John Michael Japp, Site Manager
Former Sites Restoration Division
Department of Energy
Oak Ridge Operations
P.O. Box 2001
Oak Ridge, Tennessee 37831-8723

Dear Mr. Japp:

This letter is being sent in response to a letter which was sent on April 26, 1995 to Ms. Angela Carpenter of the Federal Facilities Section. The purpose of your letter was to transmit calculation results for National Emission Standard for Hazardous Air Pollutants (NESHAPs) performed for the Maywood Interim Storage Site (MISS).

The purpose of this letter is to inform you that although Ms. Carpenter is Environmental Protection Agency's EPA's Project Manager for this site, the Radiation Branch of the (EPA) has the responsibility of implementing the radionuclide NESHAPs program in Region II and is responsible for the review of pertinent documents concerning the MISS and similar sites in New Jersey and New York. In the future such documents should be sent directly to me to assure that the information is received and reviewed in a timely manner.

We are currently reviewing the information which was submitted and should there be any comments or questions we will contact you. If you have any questions regarding this matter, please feel free to contact me at (212) 637-4010.

Sincerely,

A handwritten signature in cursive script, appearing to read "Paul A. Giardina".

Paul A. Giardina, Chief
Radiation Branch
